THE PALA This is the Estate's flagship villa. With 6 bedrooms on its dramatic cliff top setting The Pala is as suitable for a grand wedding venue as it is for special family holiday or an extravagant hideaway for that romantic weekend. The interior design here is light and refreshing. The Pala's infinity pool with its wooden decking sits above the Indian Ocean as though lying at sea level with it.

VILLA ROSE With a contemporary twist on traditional tropical design, Villa Rose offers a choice of open-air living or air-conditioned cool with astonishing views of the Indian Ocean. The villa's four almost identical bedrooms are arranged in pairs over two floors, with a king size bed and a twin bed room on each floor, making an ideal set up for families.

VILLA MARIE Although it sits just on the back of the cliff top, nearly all of the rooms at Villa Marie, as well as its garden and pool, have tantalising ocean views. Aesthetically speaking this two-storey villa is the most Balinese of the three Pandawa Cliff Estate villas in terms of style and layout, echoing the traditional compound design of many Balinese homes.
