A Day to Remember

Your first wedding only happens once and so it's an experience that should be savoured with lots of money and good taste lavished upon it. Many parameters need to be considered when tying the knot and Pandawa Cliff Estate ticks so many of the boxes that your nuptials will almost organize themselves. The estate's three villas, The Pala, Villa Rose and Villa Marie, sit atop the 100 metre-plus cliff tops of the Bukit peninsula and stare directly out onto a massive and uninterrupted horizon. Views don't get any better than this. Between them they are blessed with huge lawns, landscaped gardens, massive decked areas, three swimming pools and simply oodles of comfortable places to relax and chill as well as a small army of staff to cater to your every need. Most importantly, the villas have a total of 16 rooms offering sleeping for 32 adults which is great for keeping everyone together before the main event. Pandawa's kitchen produces the most amazing delicacies and the estate is also overflowing with facilities like a sports centre, a tennis court, squash court, gym and spa, perfect for getting the body and mind in shape before the big day.
